OUR LOGO

The boomerang represents sickness. The shield represents the Health Centres. The shield stands protective against sickness as one.

The name of Jirntangku Miyrta “One Shield for All” symbolises the Katherine West Health Board charter to reflect that the one shield is representative of all people and language groups in the Katherine West region.

OUR DREAM

‘Jirntangku Miyrta: One Shield for all...’

- all people of the region have long, healthy and happy lives
- excellent health services under community control
- all people working together to care for our health

OUR MISSION

Katherine West Health Board is a leading Aboriginal community controlled health service. We aim to improve the health and well being of all people in the Katherine West region. We provide culturally secure primary health care and we are a voice for our communities on all matters affecting our health.

KATHERINE WEST HEALTH BOARD – SERVICE DELIVERY AREA

Our Values

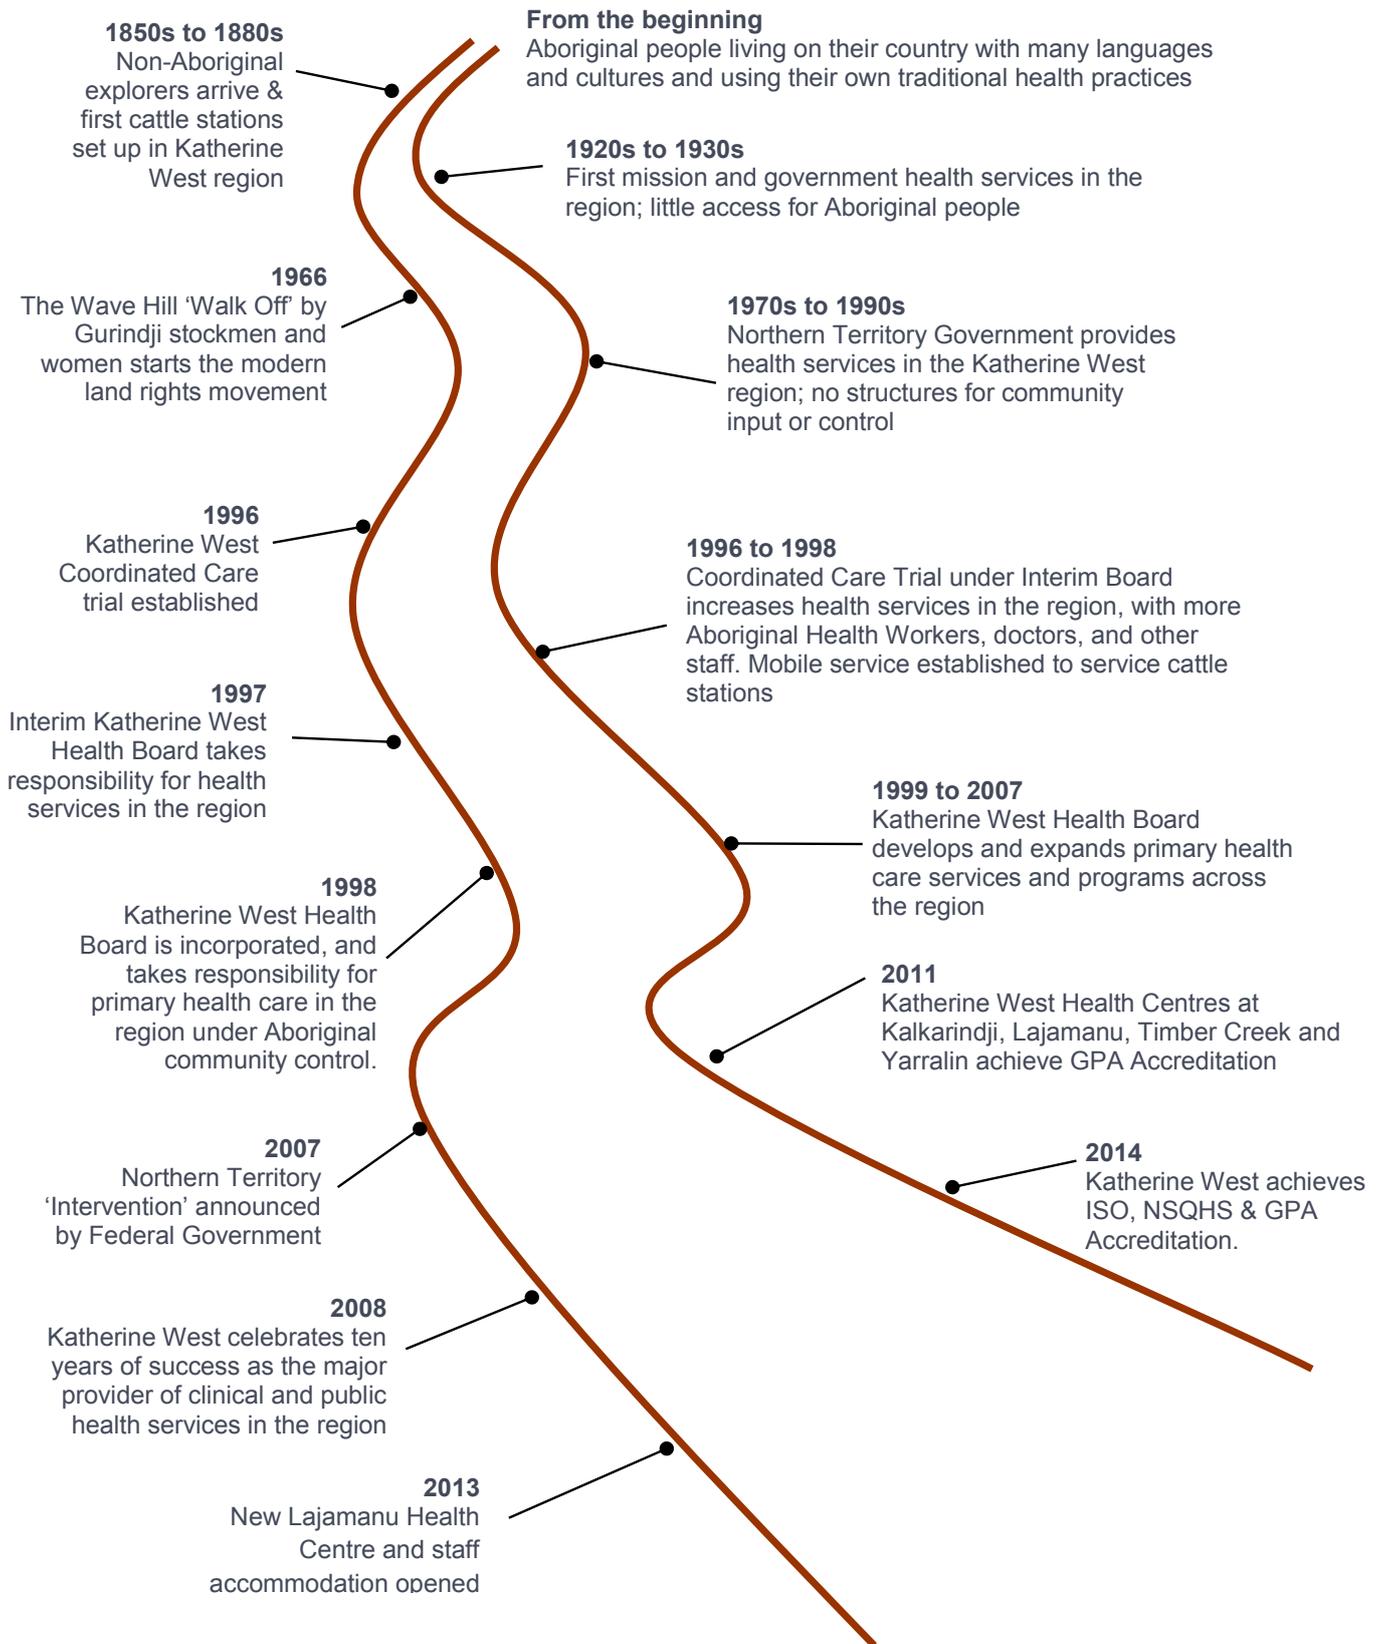

Katherine West Health Board is guided by the following values:

- health and wellbeing includes the physical, mental, emotional and spiritual wellbeing of the person and the community
- we will work as a team, Aboriginal and non-Aboriginal together
- we are committed to our work and to doing the best we can
- we will always promote respect and trust
- we have respect for ourselves and for others
- we respect the autonomy of our communities
- we will always promote and maintain culture
- we are committed to good and open communications, to talking and listening
- we will move forward carefully one step at a time
- we will look after the head, heart, body and soul of our organisation and our members
- we will demonstrate strong leadership.

OUR HISTORY

Our Priorities

We have four priority areas for the three years 2018 to 2020 to help us reach our dream...

Priority 1 A strong voice for our communities

Community control is at the heart of Katherine West. We will move forward under the leadership of our Board and listen to the communities they represent. We will advocate for the health needs of all people of the region, and maintain our focus on cultural security across the whole organisation.

1.1 Leadership from our Board

Our Board members are the representatives of the communities in the Katherine West region. We will continue to support effective Board governance and the full participation of Board members as leaders at Katherine West.

1.2 Building strong relationships with our communities

The views and needs of our communities inform everything we do. We will continue to engage with them respectfully and listen to their views to ensure we continue to meet their needs.

1.3 Speaking up for all people in our region

We will speak up for all people in our region on issues affecting their health.

1.4 Maintaining our focus on cultural security

Cultural security is the foundation of good practice across the whole organisation. We will continue to ensure that it is at the heart of everything we do.

Priority 2 Delivering high quality health care

Katherine West has brought about a big increase in health services across the region. We will maintain and expand the delivery of high quality, culturally secure comprehensive primary health care to the people of the region.

2.1 Providing high quality care for those who are sick

We will provide best-practice acute care for illness and injury for all people of the region.

2.2 Preventing illness and promoting health

We will continue to work at preventing illness and promoting health, using community development approaches that support and empower our people to take responsibility for improving their own health and that of their families and communities.

2.3 Filling gaps in service provision

We will identify health issues in the community and ensure they are addressed, either through seeking to provide services ourselves or by advocating for or supporting other organisations to provide them. This includes:

- looking after old people and people with disabilities on our communities
- ensuring safe and appropriate access to care for those with kidney disease
- supporting families to grow up healthy kids
- developing services to support social and emotional wellbeing.

2.4 Coordinating care

We will work with other health care providers to make sure that our clients have access to the health care they need in their communities, or that they can travel safely to access that care elsewhere.

Priority 3 Supporting and growing our staff

Our staff are our strength. We will continue to work on recruitment and retention, particularly of Aboriginal staff, and support all staff with training, orientation and a safe working environment.

3.1 Employing Aboriginal people

We will support Aboriginal people to work at Katherine West, developing pathways for community members into the organisation and supporting their development, including as managers, leaders, Aboriginal Health Practitioners and other health care roles.

3.2 Improving retention of staff

We will continue our work to recruit and retain qualified staff, particularly in our remote communities.

3.3 Developing our staff

We will support our staff with orientation, education and training to ensure effective services for our clients.

3.4 Ensuring a quality, safe working environment

We will provide a safe environment for our staff that supports them to do their jobs well, including through continuing to maintain and improve our buildings, equipment and Information Technology systems.

Priority 4 All of us working together

All of us at Katherine West will work together to provide high quality services for our clients and communities. Where needed, we will work with other organisations to improve the health and wellbeing of the people of the region.

4.1 Providing effective leadership

We will maintain and strengthen our high quality management, financial and primary health care /clinical governance systems.

4.2 Promoting communication and team work

We will maintain and build on our collaborative processes across Katherine West to ensure all staff work effectively with each other

4.3 Building our partnerships with government and other organisations

We will work with government and other service delivery agencies to ensure that the health needs of the people of the Katherine West region are addressed.

4.4 Evaluating our progress

We will foster a culture of reflection and quality improvement to ensure that we *continue to meet the needs of the communities we serve.*

Our Plan in one look

Our Dream: 'Jirntangku Miyrta: One Shield for all...'
All people of the region have long, healthy and happy lives
Excellent health services under community control
All people working together to care for our health

Our Mission: Katherine West Health Board is a leading Aboriginal community controlled health service. We aim to improve the health and wellbeing of all people in the Katherine West region. We provide culturally safe primary health care and we are a voice for our communities on all matters affecting our health.

PRIORITY 1: A strong voice for our communities

Community control is at the heart of Katherine West. We will move forward under the leadership of our Board and listen to the communities they represent. We will advocate for the health needs of all people of the region, and maintain our focus on cultural security across the whole organisation.

- Leadership from our Board
- Building strong relationships with our communities
- Speaking up for all people in our region
- Maintaining our focus on cultural security

PRIORITY 2: Delivering high quality health care

Katherine West has brought about a big increase in health services across the region. We will maintain and expand the delivery of high quality, culturally secure comprehensive primary health care to the people of the region.
